I again apologize for my tardiness in submitting this presentation, but it only just occurred to me that this presentation to the Metropolitan Washington College of Occupational and Environmental Medicine would fall under the requirement for pre-publication review.

This is an UNCLASSIFED presentation and does not discuss any FBI investigations or operations, and does not discuss FBI policies. Rather it is a oral presentation to a group of occupational health physicians in the Washington metropolitan area that will discuss some of the occupational health challenges faced by the Office of Medical Services in trying to optimize the health status of the FBI workforce.
